EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Carl C Kling on 1/23/2007.

The application has been amended as follows:

In claims 62 and 67, line 1, the number "57" has been changed to - - 58 - -.

Since claim 57 has been cancelled this corrects a claim dependency issue.

2. This application is in condition for allowance except for the presence of claims 3-11,15,16,21,25,35-37,39-51,59-61,64,69,70, and 74-78 directed to groups or species non-elected without traverse. Accordingly, claims 3-11,15,16,21,25,35-37,39-51,59-61,64,69,70, and 74-78 have been cancelled.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

The prior art when taken separately or combined fails to teach and/or show a compact energy-recycling homogenizer having a folded optical channel with at least one entry and exit port with a plurality of parallel internally reflective longitudinal surfaces and similar latitudinal surfaces perpendicular to the longitudinal surfaces such that some of the light rays reflected back toward the entry port are re-reflected in the forward direction and returned for recycling.

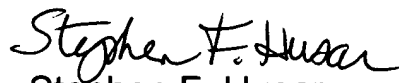

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
